

# IIBCC 2010

International Inorganic-Bonded Fiber Composites Conference

[www.iibcc.net](http://www.iibcc.net)

HOSTED BY AALBORG UNIVERSITY AND CEMBRIT

## 12<sup>TH</sup> IIBCC IN AALBORG, DENMARK, 21-24 SEPTEMBER 2010

The IIBCC is the perfect opportunity for networking between people with a common interest in all types of inorganic-bonded products and technologies including fiber cement, fiber gypsum, fiber ceramics, wood cement products, brick and block composites and other related topics.

### IMPORTANT DATES

**1 MAY 2010:**

Deadline for submission of nominations for the Moslemi Excellence Award

**31 JULY 2010:** Deadline for early registration

**21-24 SEP. 2010:** The IIBCC 2010 Conference

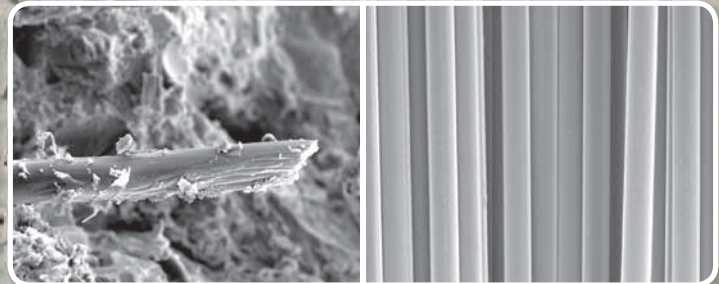

### ORGANIZED BY

AALBORG UNIVERSITY

Cembrit

## GAIN KNOWLEDGE - STRENGTHEN YOUR NETWORK

At the IIBCC you will meet manufacturers, potential customers, key suppliers and experts from around the world while gaining knowledge from cutting edge research.

The conference makes every effort to facilitate meetings and interactions between the delegates. Therefore you will also expand your knowledge of the market perspectives and develop strong business relationships.

The city of Aalborg welcomes you - Experience everything from breathtaking nature and historic buildings to gourmet restaurants and cozy nightlife.

## WIN 5,000 EURO – EXCELLENCE AWARD

The Moslemi Excellence Award 2010 is a tribute to the eminent work done by Prof. Al Moslemi in establishing and organising the IIBCC conferences in the years 1988-2004. In 2010 the award will be presented to the most outstanding research or development contribution advancing the sustainability of fiber cement.

### The award consists of:

- a certificate with name of student, supervisor and research subject.
- a prize of € 3,000 for the student.
- a prize of € 2,000 for the supervisor or research group.

This year's award sponsor is Redco N.V.
